- Traveling, music

EDUCATION

Sep 2018 - Jan 2023: Can Tho University

I graduated from Can Tho University with a degree in Information Technology. I possess a quick learning ability and can adapt effectively to new environments.

WORK EXPERIENCE

Dec 2023 - Present: Splus Software

PHP - Laravel Developer

- During a Laravel SSR project, I was actively engaged in communicating project specifics with a Japanese client. My primary task involved developing a web application that aligns with the client's needs. Utilizing my expertise in Laravel and SSR, I concentrated on enhancing performance to meet project objectives. The project is currently in progress, receiving favorable feedback, and advancing steadily.

Aug 2022 - Nov 2023: Freightek

Fullstack Developer (PHP Laravel + Vue Js)

- Engage in API and User Interface development for Freightek Vietnam's digitalization software, utilizing PHP Laravel and Vue.js programming languages. PHP Laravel is for constructing APIs, while Vue.js is for creating user interfaces.
- Participate in research and development of applications on mobile platforms with the Flutter framework

May 2022 - Aug 2022: STECH

Web Developer (React Js)

- Participate in the development of APIs and User interface for Social network system using Nextjs and Express framework programming languages. In that, Express to build APIs and Nextjs to build user interfaces.
- Supporting functions for interacting with the Server through an interface
